

DOMESTIC PRE-ACCEPTANCE PROGRAM

The Pre-Acceptance Program is designed for home study approved adopting families who want to be on an official waiting list for the Full-Service Domestic Program. The agency cannot predict what the wait time will be for any family signing up. The agency will notify families when an opening arises, and the family may choose to fully onboard at that time. Families will be provided with the current Full-Service Fee Agreement to sign and invoiced for the applicable fees. The adopting family may choose to defer acceptance once and they will be placed back on the waiting family list. If they decline admittance twice, they will be removed from the list and this agreement will be terminated. The agency may terminate the agreement if the family fails to maintain a valid and approved home study.
