DAWANNA AND RAYMOND

ABOUT US

We are Dawanna and Raymond, a loving couple residing in the bustling city of New York. We come from different professional backgrounds, with Dawanna being a lawyer and Raymond a doctor. Together, we have built a stable and secure life for ourselves.

We believe that adopting a child is our calling. The desire to become parents has always resided within us, and we are overflowing with love to share with a child. Before embarking on this journey, we focused on establishing ourselves in our respective careers, ensuring stability and a solid foundation for our future family.

Now that we have achieved a level of comfort, we are ready to dedicate our lives to building a loving and nurturing environment for a child.

Before embarking on this journey, we focused on establishing ourselves in our respective careers, ensuring stability and a solid foundation for our future family.

Now that we have achieved a level of comfort, we are ready to dedicate our lives to building a loving and nurturing environment for a child. We possess a myriad of qualities that make us suitable for this role. Our confidence and drive enable us to face any challenge that comes our way, ensuring that we provide the best possible care for our child.

Adventurous by nature, we believe in the importance of exposing our future child to various experiences and cultures. We will encourage exploration and provide an education that goes beyond the classroom.

Our Family and Friends

We love spending time with family and friends. They are the center of our lives. We are always in contact with each other and spend quality time together.

Whether it is birthdays or holidays, we make sure to sit down together to share meals on these special days. We are especially excited about a new baby because our youngest nieces and nephews would be the most loving cousins.

With friends, we sit and talk about everything. We love going out and trying new restaurants and travel adventures. Most of our friends have children and they look forward to our children playing together. Our supportive network is amazing.

Home and Community

We live in a beautiful building with great neighbors, and it is very secure. Our home is near central park. We enjoy jogging, and we like to get out of the gym when the weather is nice and run in one of the many nearby parks. Besides jogging, we love to enjoy nature, along with the music and art programs that are offered in New York City. Walking in the park, going to Broadway shows, and seeing museum exhibits are activities that we do regularly. Dawanna loves being involved with arts and culture in the city that are geared towards children. We can only imagine the adventure these activities would hold for a child.

Then there is travel. We view the world as a classroom. One must constantly educate oneself by getting out in the world. There is so much to see and discover. Raymond brings home keepsakes from travels around the world, which he often gives to the children of our friends. We look forward to traveling the world with our child and exploring through his or her eyes.

Our friends and family consistently visit and we will feed them and curl up on the sofa to simply laugh and talk. We love precious moments with the children of our friends. Also, Dawanna finds herself chatting by phone with her grandma or binge-watching with friends the latest streaming show. Raymond takes his mom to dinner every weekend and loves to play reggae pop or other music while dancing as if nobody's watching around the house. We also both love to read Dawanna loves biographies and Raymond prefers fiction.

We simply love to laugh, live with joy and be kind to others.
